## Overview of the Discourse:

Needless to highlight that COVID-19 pandemic has affected the world grievously. It has affected all spheres of life including education as well. All the schools, colleges and universities being closed for long time, country-wide lockdown, return of students from foreign countries, social distancing, economic slow-down and uncertainty of life around, Indian education is facing new challenges ahead. The situation has led us into some alterations in the field of education to cope with the present situation. The situation invites all of us to rethink education from various perspectives. With these inputs, the webinars are designed to address the future of education after COVID-19 pandemic in India.

The whole discourse was named after Swami Vivekananda with a specific purpose. It is a commonly acknowledged fact that India has been the fortunate piece of land having innumerable brilliant and visionary personalities, who not only seen education in its totality but also could vision with futuristic gains for society in particular and nation in general. The blend of ancient & modern, we see in the philosophy of Swami Vivekananda is incomparable, on the one hand we need to overcome from the shadow of Macauley and to look for originality, indigenous education and age old heritage of India and on the other hand we need to keep pace with all the so-called advancements of the rest of the world.

## The whole series in its first phase will be deliberating on-

- A. National Webinar on Re-orienting to the Indigenous Education: From KG to PG
- B. Inter-National Webinar on Technological Interventions in Educational Practices
- C. National Webinar on Teacher Education: Challenges & Prospects
- D. Inter-National Webinar on Paradigm Shifts in Research Trends
